Porur, Chennai, Tamil Nadu, India | +91 8870686892 | mukundhasuresh@gmail.com | linkedin.com/in/mukundha-suresh-390309203 | github.com/mukundhasuresh

PROFESSIONAL SUMMARY

B.Tech graduate in Cybersecurity and IoT (2026) with hands-on, self-driven experience in Security Operations. Skilled in Windows Event Log analysis (Event ID 4624/4625 for logon and brute-force detection), SIEM concepts, Splunk SPL queries, and Wireshark/tcpdump packet analysis (TCP, DNS, HTTP). Experienced in phishing email investigation, MITRE ATT&CK-mapped incident response, and vulnerability assessment through independent penetration-testing projects on Android and web applications. Seeking an entry-level SOC Analyst role to detect, investigate, and respond to security incidents while growing under senior analysts.

TECHNICAL SKILLS

- SIEM & Monitoring: Splunk, Microsoft Sentinel, Wazuh
- Log Analysis: Windows Event Logs (4624, 4625), Linux logs
- Network Security: TCP/IP, DNS, HTTP, Wireshark, tcpdump
- Penetration Testing: Burp Suite, OWASP ZAP, MobSF
- IDS/IPS: Snort
- Digital Forensics: FTK Imager
- Malware Analysis & Threat Hunting: YARA rules
- Android Studio - Kotlin
- Threat Detection: MITRE ATT&CK framework
- Incident Response: Triage, phishing investigation
- Vulnerability Assessment: Nmap, OWASP Top 10
- Programming: Python, Java
- Basic Cloud Concepts: AWS, Azure

EDUCATION

Sri Ramachandra Faculty Of Engineering And Technology | 2022 - 2026

B.Tech (Cybersecurity and IoT)

Kendriya Vidyalaya, AFS Avadi | 2010 - 2022

Senior Secondary Schooling (CBSE)

PROJECTS

ANDROSEC AUDIT — ANDROID APK PENETRATION TEST [\[Repo\]](#)

End-to-end static and dynamic security assessment of a vulnerable Android banking app using MobSF and Burp Suite. Identified 14 findings across all 10 OWASP Mobile Top 10 categories, including cleartext credential transmission and hardcoded secrets, documented in a professional pentest report.

WINDOWS LOG ANOMALY DETECTOR [\[Repo\]](#)

ML-powered security tool that reads Windows Security Event Logs in real time and flags suspicious activity such as failed logins and off-hours access using an Isolation Forest model, with severity-based alerting and a live Streamlit dashboard.

WEB APPLICATION PENETRATION TESTING LAB USING OWASP JUICE SHOP (DOCKER) [\[Repo\]](#)

Dockerized black-box pentest lab pairing OWASP Juice Shop with OWASP ZAP, covering baseline, authenticated, and full active scans alongside manual exploitation of vulnerabilities mapped to the OWASP Top 10 (2021), including SQL injection and broken access control.

SECURE DEVOPS PIPELINE [\[Backend\]](#) [\[Frontend\]](#)

Full-stack platform (frontend + backend) built to weave automated vulnerability scanning directly into the CI/CD lifecycle, using containerized environments and security-first workflows to catch issues before they reach production.

EXPERIENCE

DIGITAL ASSOCIATE | MEDSCALE SYSTEMS | MARCH 2026 - JULY 2026 (CHENNAI, INDIA — ON-SITE)

Worked on the development of an AI-powered healthcare operations platform for healthcare automation, and on AI-powered LinkedIn automation.

MACHINE LEARNING INTERN | CODEZ - INNOVATING IDEAS | JULY 2025 - OCTOBER 2025

Built and optimized machine learning models for real-time applications, including data preprocessing, model training, and evaluation in Python.

SOFTWARE ENGINEER INTERN - NETWORKING | TECHNOSHRINE INFOSOLUTIONS | AUGUST 2024 - NOVEMBER 2024

Worked on telecom and networking infrastructure tasks including network configuration, troubleshooting, and connectivity management; built small utilities/scripts to support network operations.

CYBERSECURITY INTERN | SRI RAMACHANDRA INSTITUTE OF HIGHER EDUCATION AND RESEARCH | MARCH 2024 - MAY 2024

Developed a secure Notes app with Two-Factor Authentication (2FA) using Kotlin in Android Studio, applying secure coding and authentication design practices.

CERTIFICATIONS

- Introduction to Cybersecurity — Cisco (2025)
- Networking Basics — Cisco (2025)
- Node.js Certification Course — Scaler
- Cyber Job Simulation — Deloitte Australia
- Cybersecurity Analyst Job Simulation — Tata Group
- Introduction to MongoDB — MongoDB
